About Rattan House

Rattan House is a leading manufacturer and exporter of all rattan outdoor furniture in the Middle East. Established in 1982 in Amman, Jordan, as a small work shop weaving outdoor furniture, Rattan House has grown and expanded its market to reach the Gulf region and the Middle East. Today we operate across multiple markets, specifically Operating in the UAE, Saudi Arabia, Qatar, Jordan and Indonesia.

Our Factory

In 2005, Rattan House established the Rattan House Factory to meet the growing demand of the Group and to create their own luxurious outdoor furniture collections. The Group's aim was to fulfill customers' needs with long-term cooperative relationships, taking more quality control over their products and making an impact in the global outdoor furniture marketplace.

**"AT RATTAN HOUSE
WE BELIEVE THAT
QUALITY COMES
FIRST."**

Innovating Outdoor Solutions

Rattan House is a one-stop destination for all outdoor furniture, where products are durable, affordable, designed with precision, and adhere to very high quality and safety standards. We provide complete solutions and have become a destination for a variety of unique outdoor furniture collections; and most importantly high quality standards to match top world brands. We cater for the 360 degree solution to our customers' needs by bringing different types of materials and products (high grade resin, teak, stainless steel, aluminum and mesh furniture) in a range of prices suitable for all types of hospitality and F&B clients in the region, all under one roof.

Rattan Furniture

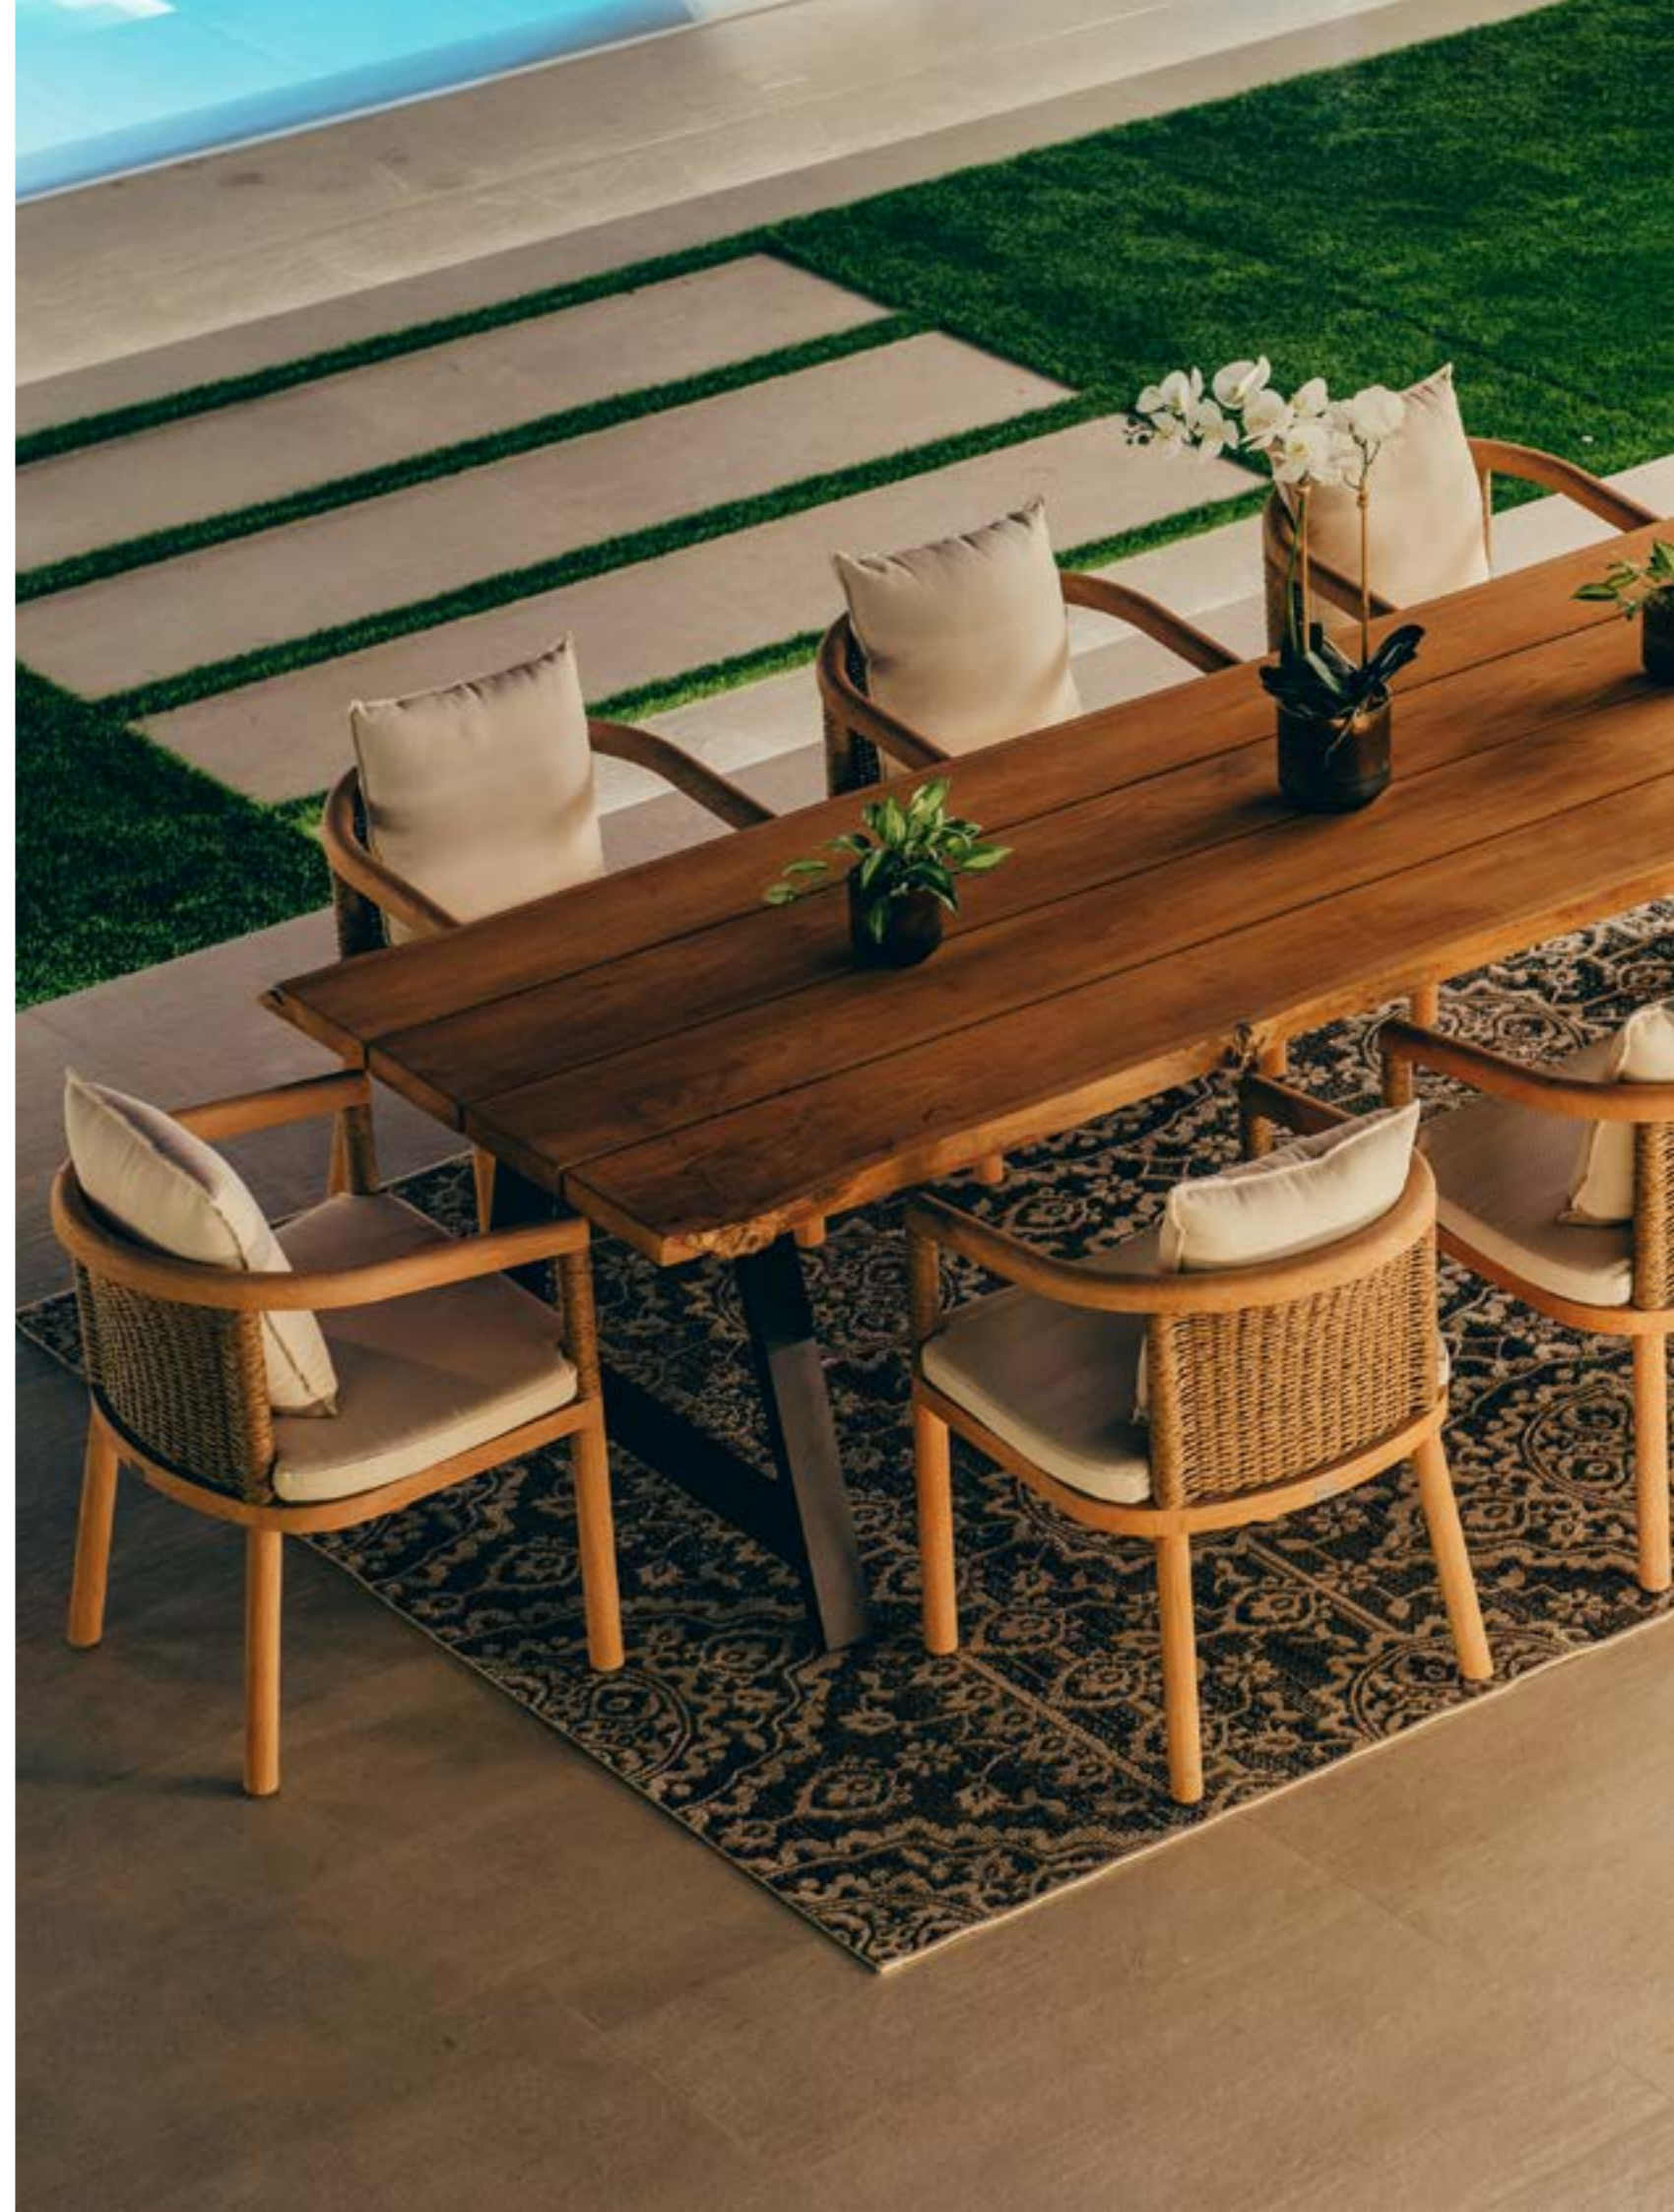

Our synthetic rattan furniture is made with only the highest quality materials, to withstand a variety of extreme weather conditions.

Each piece of furniture uses high grade aluminum framework weaved with the world's leading synthetic fiber acquired from Viro and Rehau and upholstered with weatherproof fabric from Sunbrella and Etisilk.

TEAK FURNITURE

Our Teak Collection offers a full range of furniture using the highest quality teak material sourced directly from Indonesia. Our collection includes chairs, tables, and benches that are all suitable for contract clients.

ROPE FURNITURE

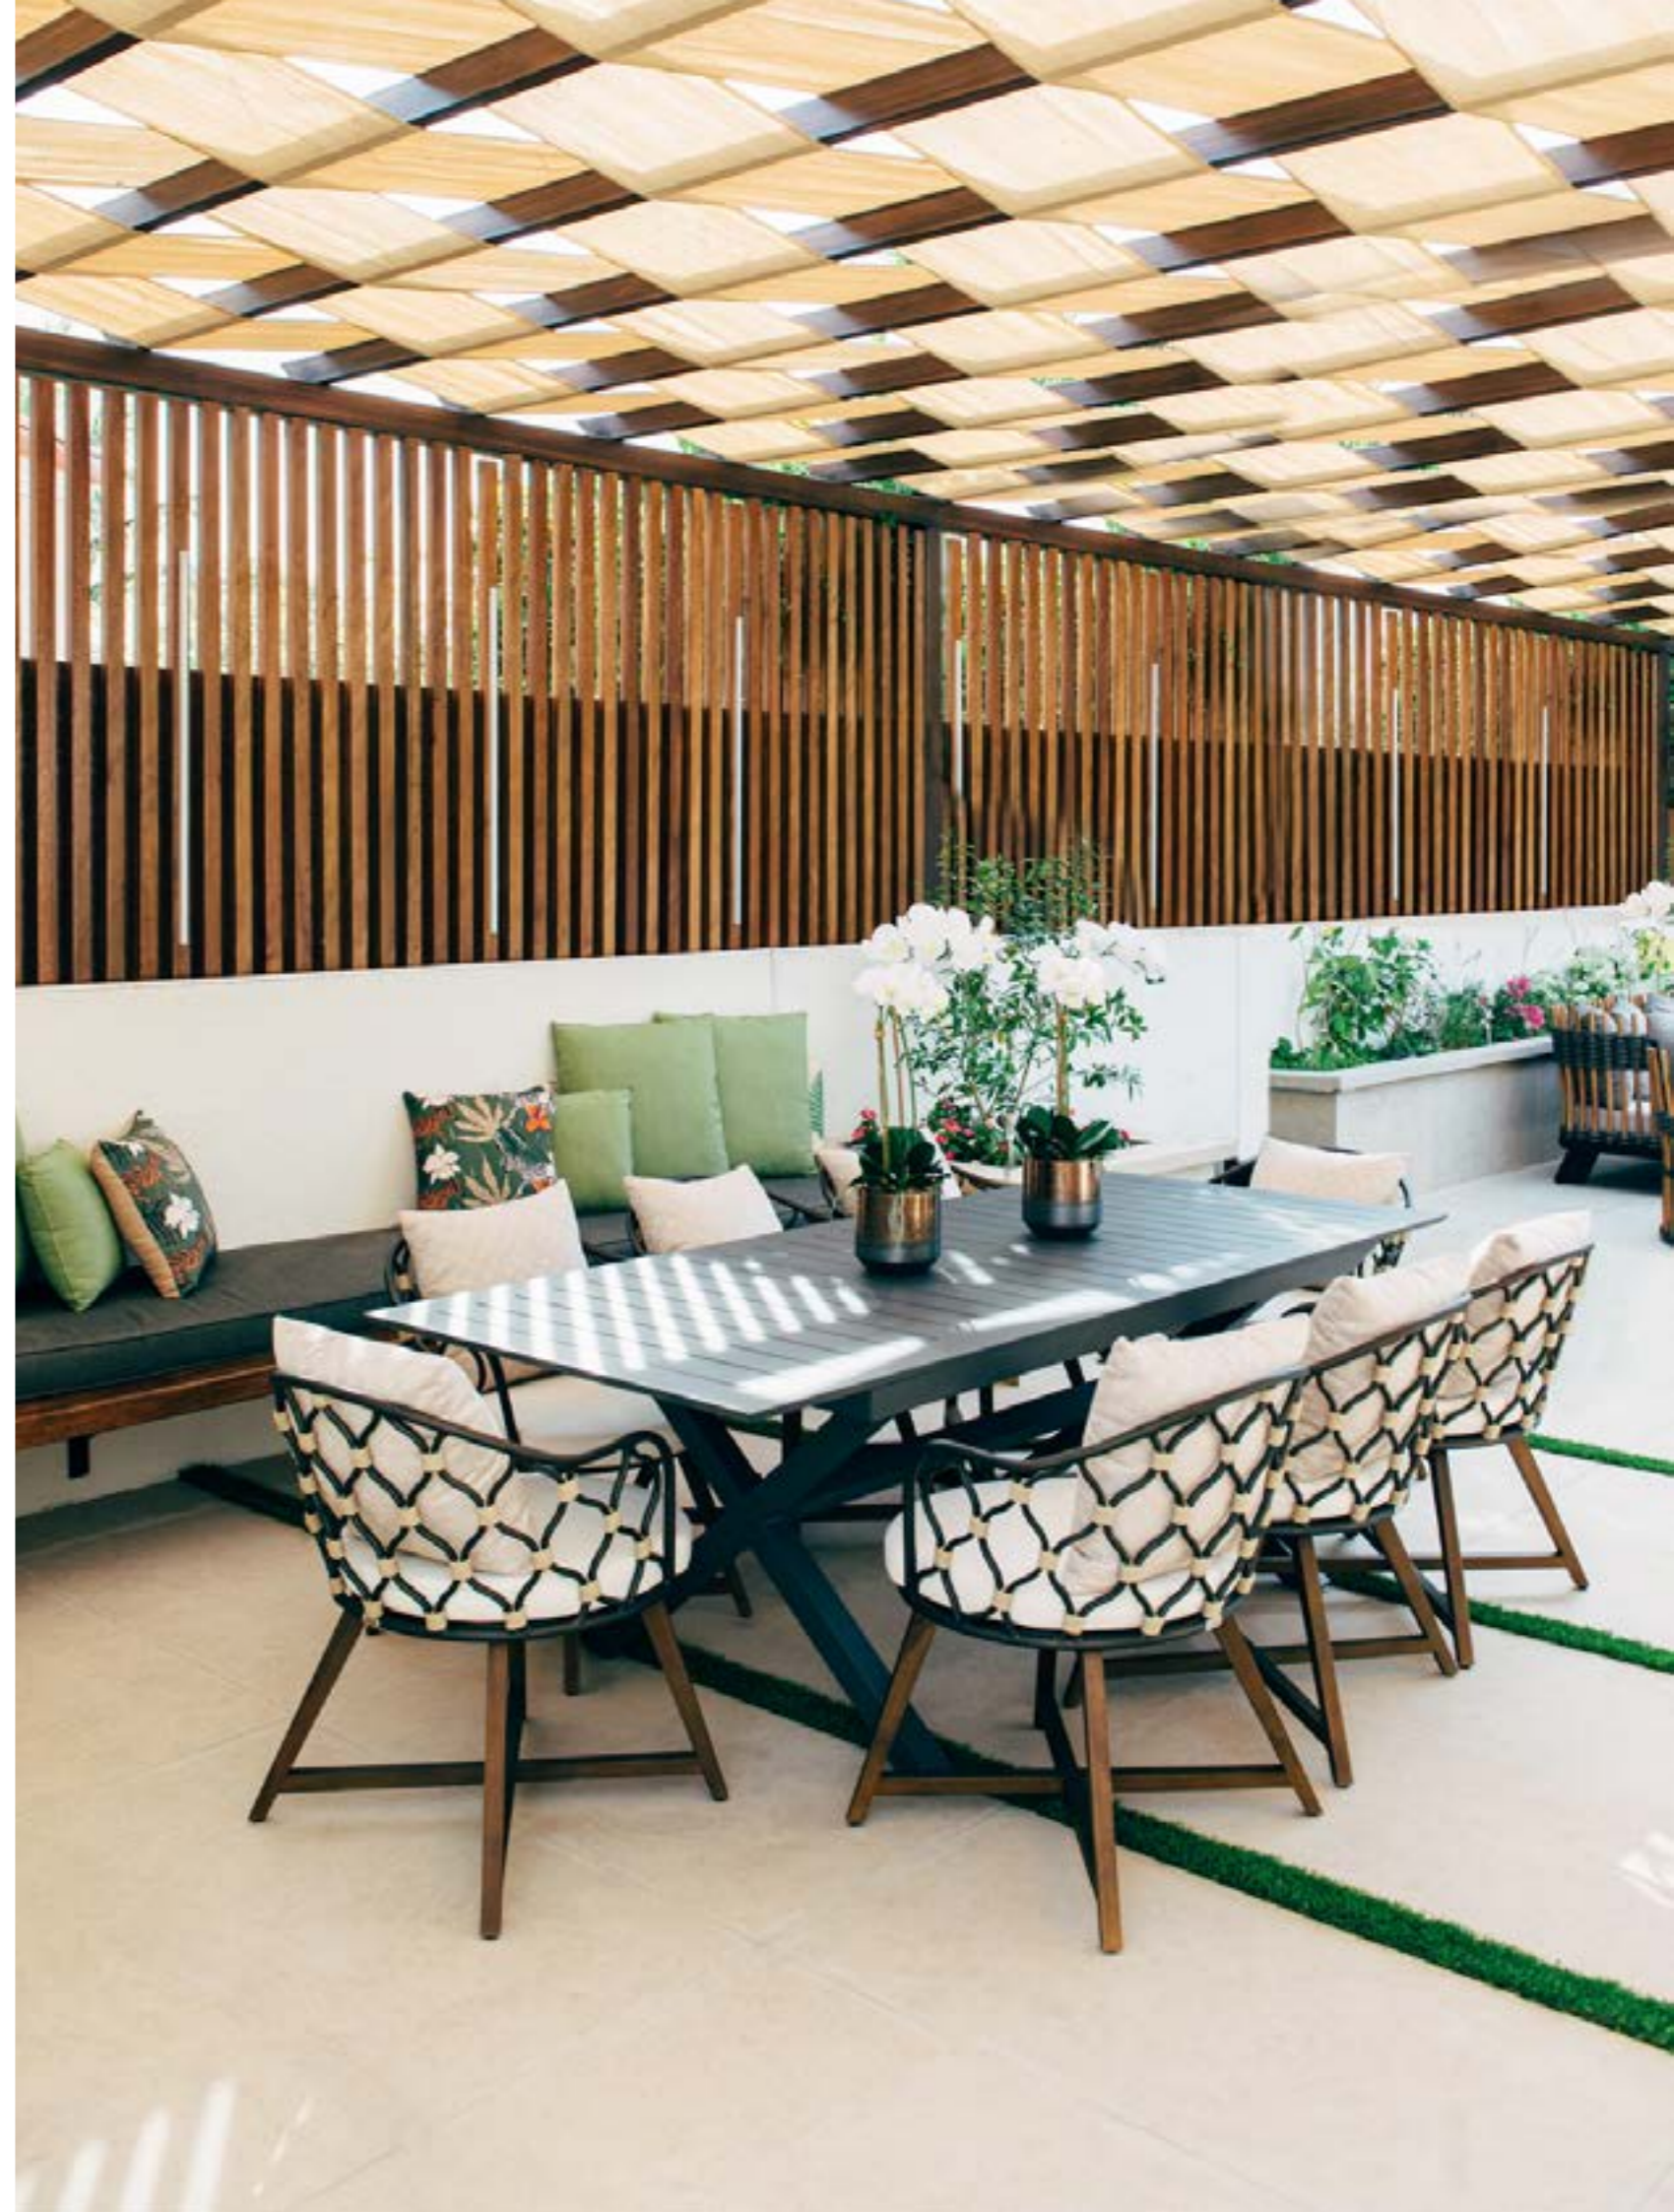

A very strong and high quality rope material used in outdoor furniture; Made up from three strands, using multiple fibers, twisted rope is a good option for outdoors activities. Acrylic rope is used in our factories, which is known as the best rope quality

ALUMINUM FURNITURE

Aluminum is a metal that is commonly used for outdoor furniture, it is usually chosen because of its light weight and the minimal maintenance that it requires. Aluminum is a durable material for different reasons. It's resistant to corrosion and rust, holds up well to outdoor elements and lasts a lifetime. Aluminum furniture is finished with a powder coating, which lends to its long-lasting quality.

Powder Coat Finishes are offered in a variety of colors to enhance your outdoor space. Outdoor aluminum furniture is the better choice for unique design and style.

FABRICS

All Rattan House Outdoor fabrics are manufactured specifically for the use of garden furniture, cushions and parasols. With carefully selected partners such as Texsilk and Sunbrella, Rattan House offers a wide variety of fabric designs and colors; all of which are weather proof, easy to maintain and offer a minimum warranty of 1 year.

SHADES & UMBRELLAS

Our umbrellas, shades are carefully selected to complement our products and the ambiance our clients aim to recreate at their venues.

TABLE TOPS

We offer a wide variety of table tops in several colors and finishes to match your restaurant, cafe or bistro's decor. Our wide range of table tops can be used both indoors and outdoors. Designed for durability and convenience, our tops also make a statement contributing to the the dining experience for your guests.

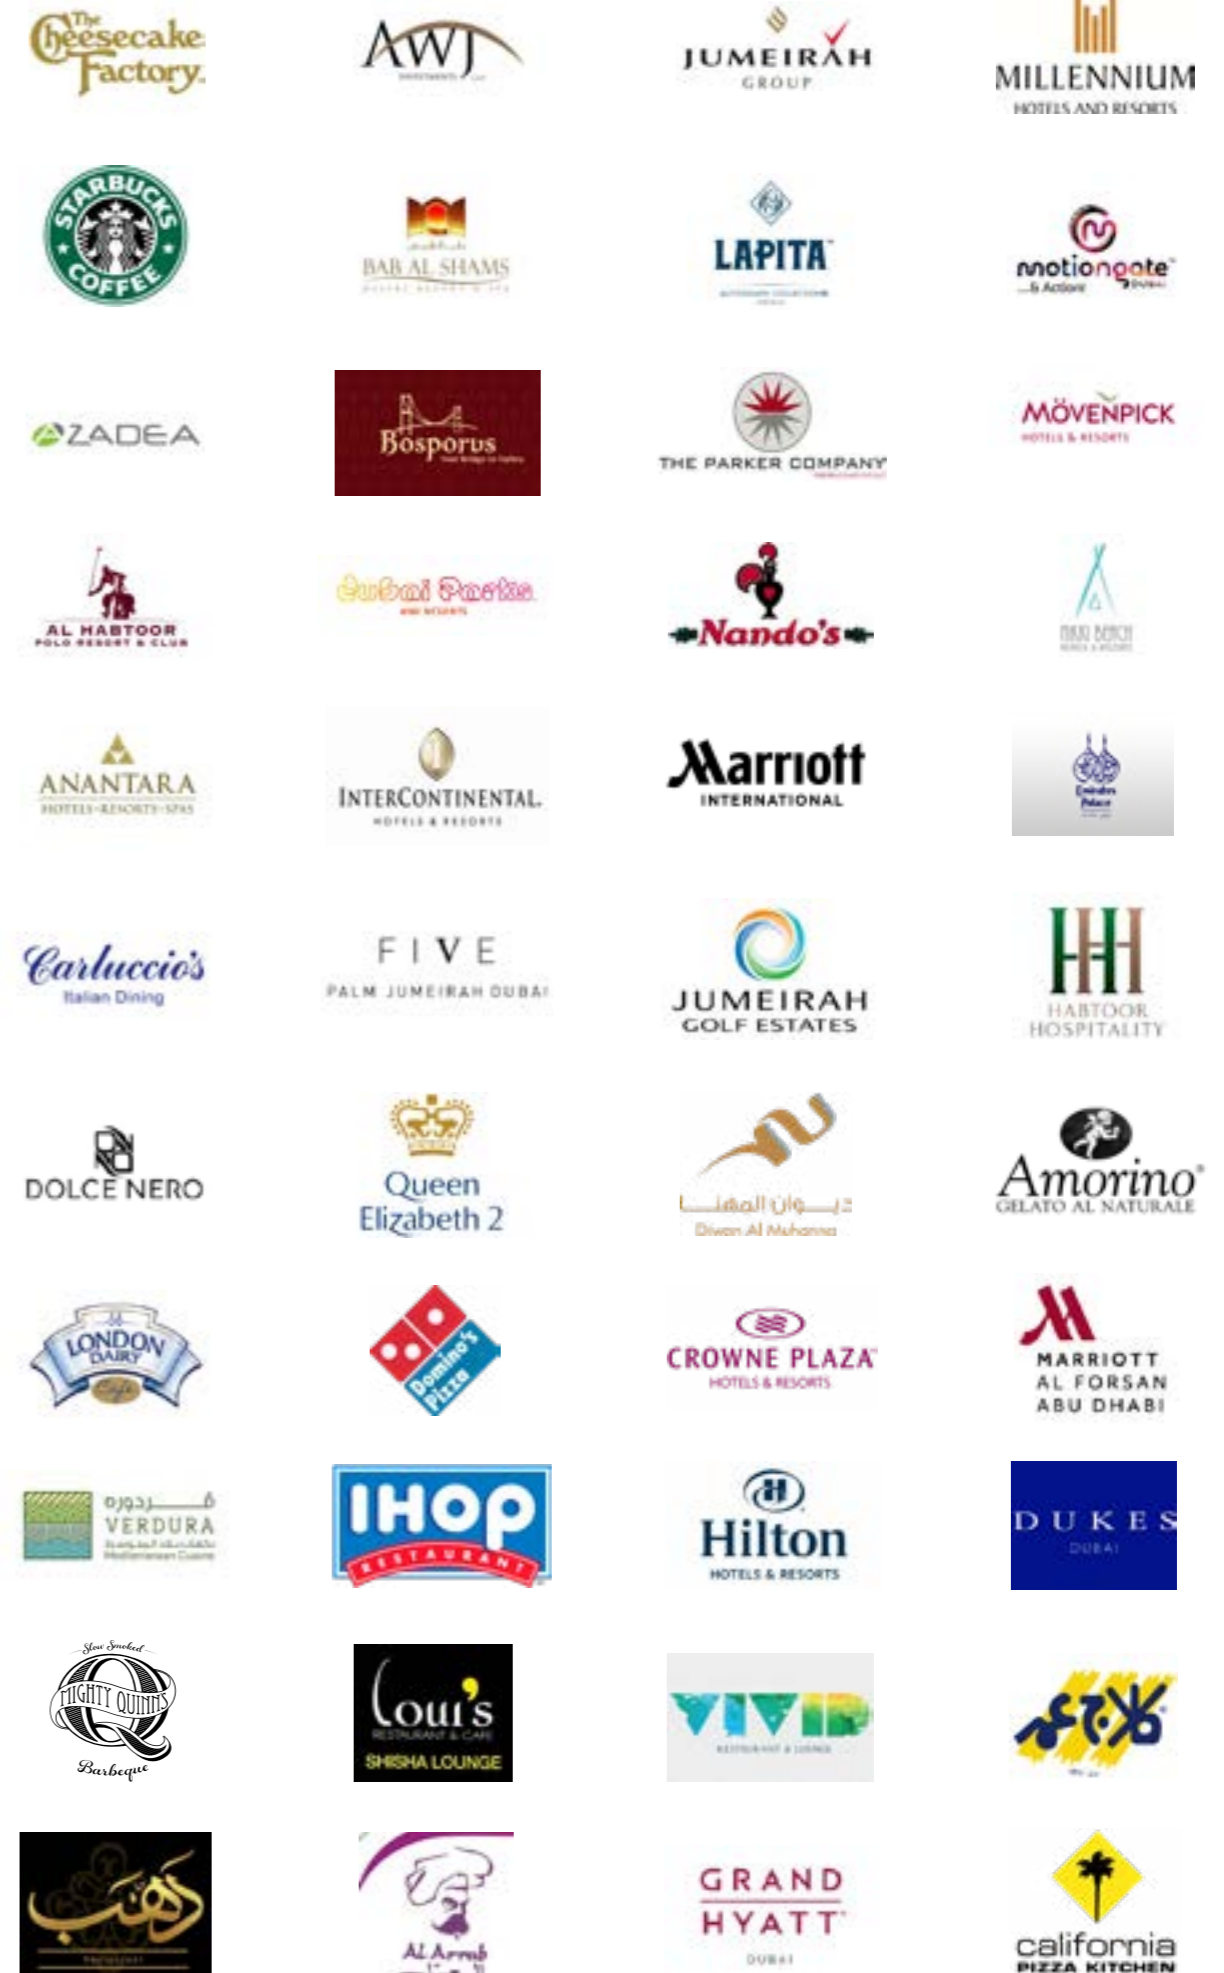

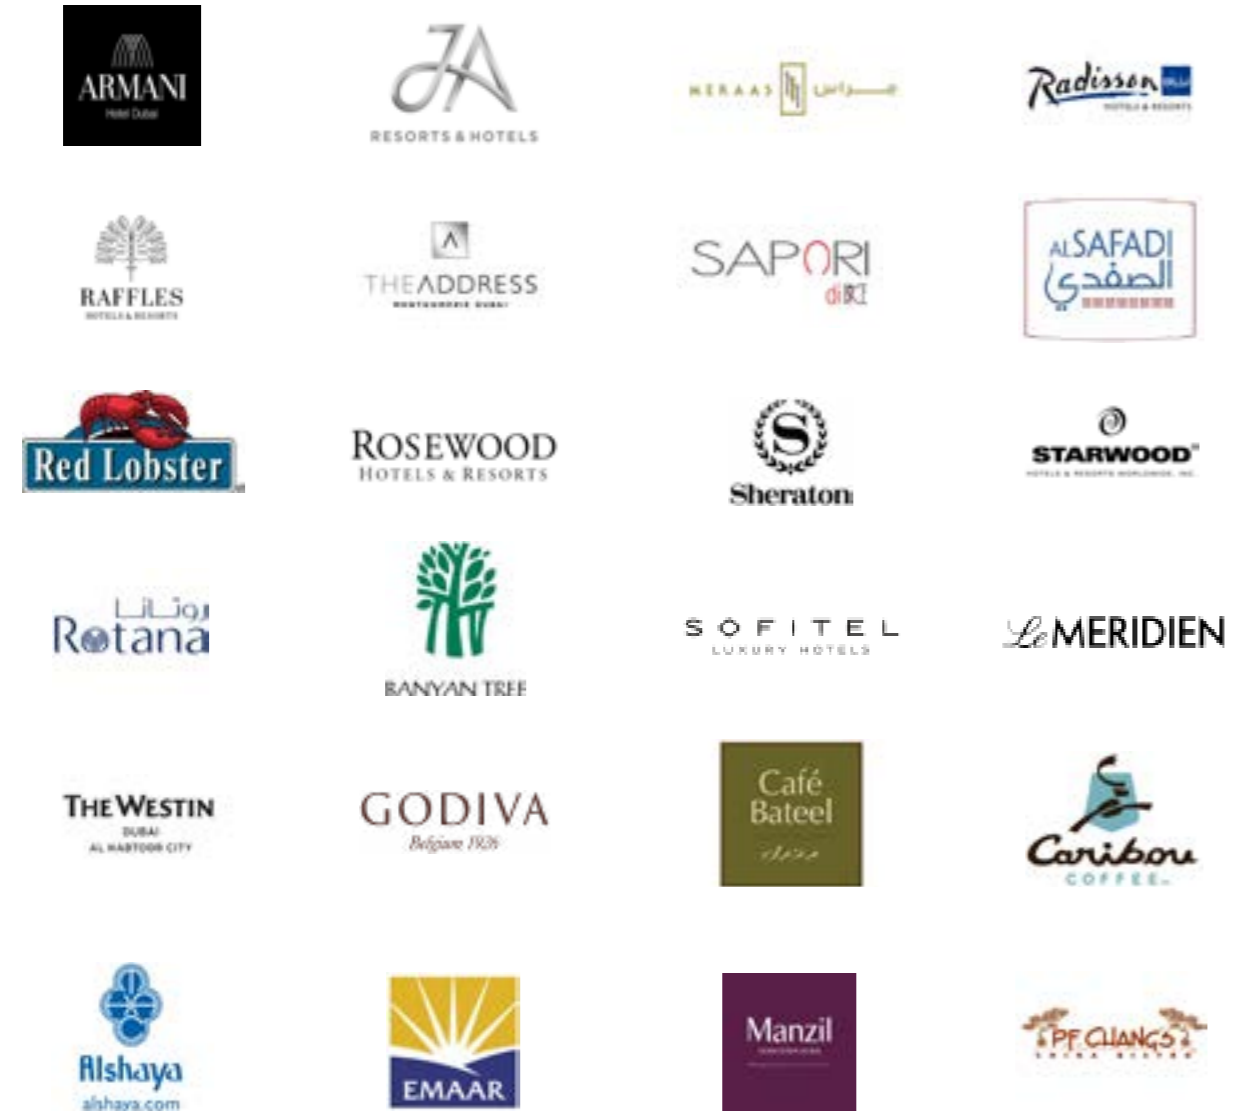

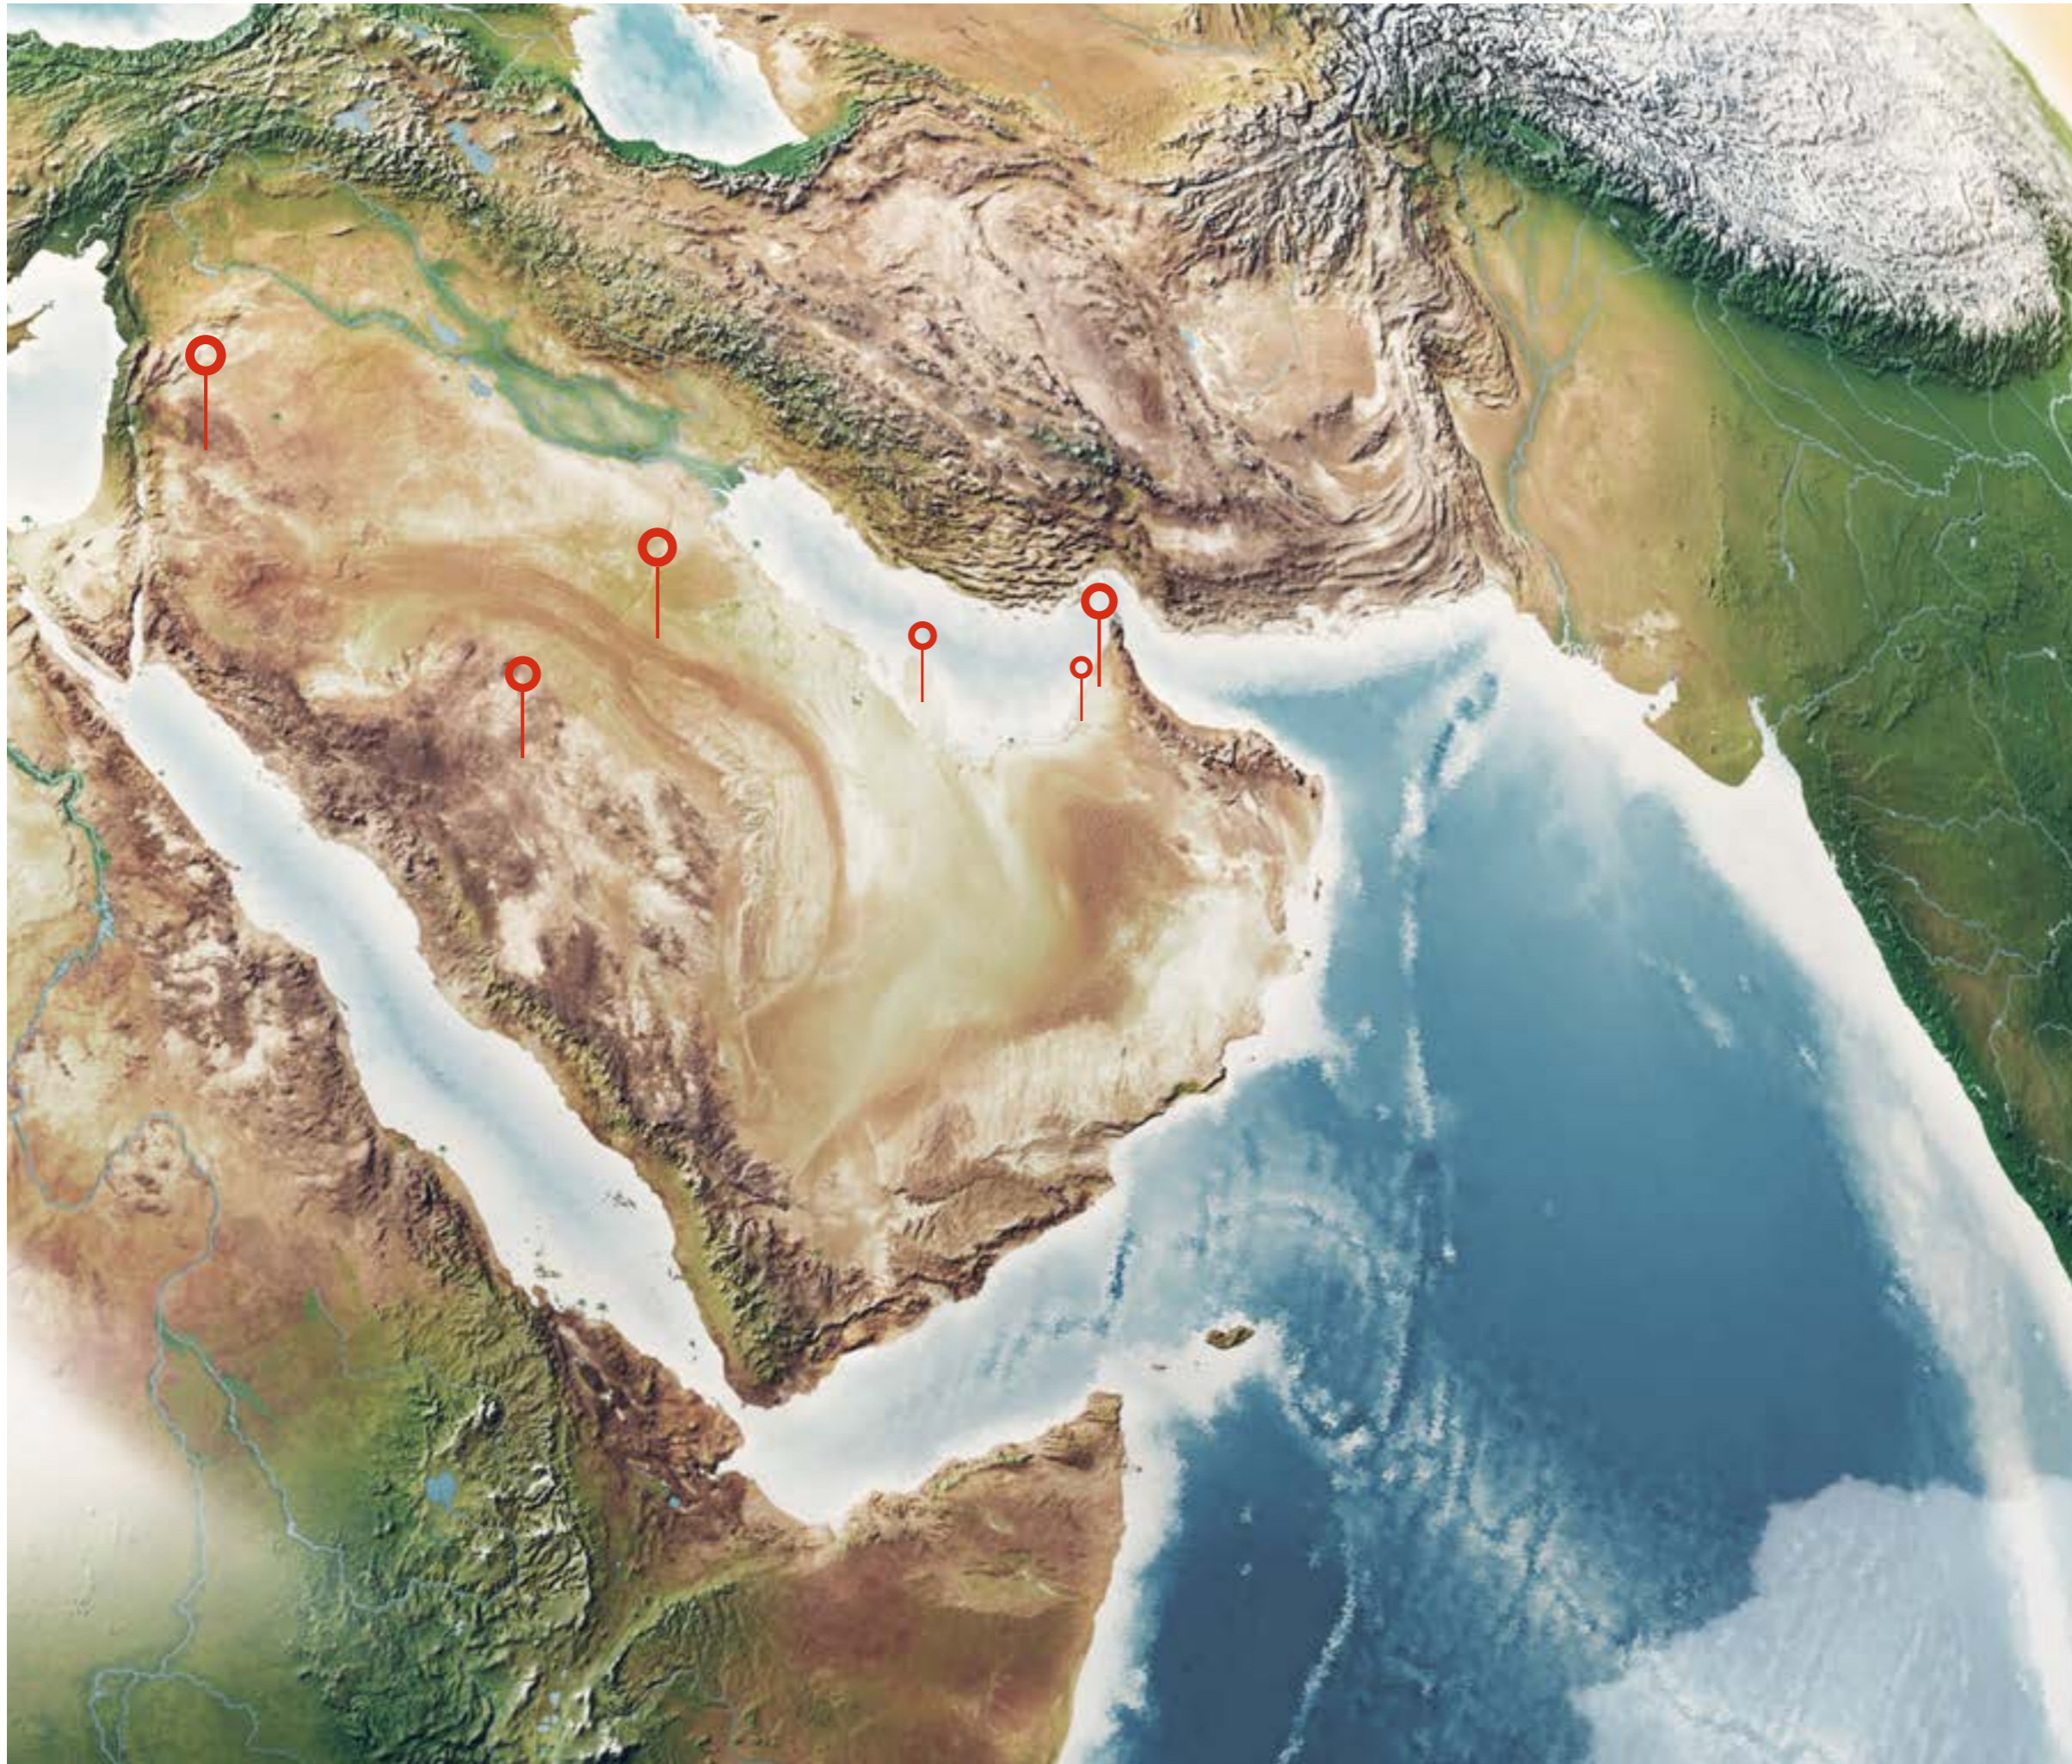

TABLE BASES

The No.1 solution to wobbly tables A multi award winning leveling and stabilizing technology. Delivering functionality and cost savings never seen before in the hospitality industry.
